

## FISHING PARTNERSHIP

SUPPORT SERVICES

# BEN'S STORY

## Our Community Health Worker Navigator Model Evolves with Fishermen

For fishing families, Navigators represent their go-to support system when challenges, tragedy, or even life's happy moments arise. Ben Travers was first introduced to FP by his father Frank who reached out for assistance enrolling his family in a Health Connector Plan. At 15, Ben came to his first Safety & Survival training, beginning his own relationship with our team. Over the years, Ben has reached out numerous times; his experience is indicative of our ability to provide ongoing resources and respond to both changing life and industry needs.

### AGE 15

First individual interactions with FP Navigators/Attends 1st Safety & Survival Training

Attends 2nd Safety & Survival Training & Drill Conductor

### AGE 16

Attends CPR/First Aid Certification

### AGE 18
